MEDICINAL.

Dr. Pierce's Pleasant Pellets.—Think how many women are tired out! Dress-makers, seamstresses, "shop-girls," milliners—all hard-worked and weary over it; to say nothing of the young lady herself sitting or standing all day in the hardest kind of work it gives you no healthy well-balanced exercise; part of the body is overworked and the rest of it is under-worked. The system grows sluggish, the appetite is poor, the stomach is out of order, the bowels are constipated, you have headaches and dizzy spells. It's impossible for you to take as much out-of-door exercise in the daylight as you need. The best help you can have in the circumstances is a simple laxative medicine like Dr. Pierce's Pleasant Pellets. They will, as nearly as any medicine can, supply the lack of free exercise which is lacking in all indoor work. They are dyspeptic, biliousness and constipation in a pleasant, gradual, natural way. There is no gripping or weakening effect with the "Pleasant Pellets"; they act surely but gently; they promote liver-action, and give tone and strength to the stomach and intestines to do their own work. When you become regular the "Pellets" can be stopped. You don't have to take them forever. The cure is permanent.

Dr. Pierce's Pleasant Pellets are small sugar-coated granules; agreeable to take. Children like them. If the druggist wants to sell you some other pills that pay him better, just think of what you will receive in a sample package free if you will send your name and address to the World's Dispensary Medical Association, Buffalo, N. Y.

The People's Common Sense Medical Advice, by V. Y. Pierce, M. D., Chief Consulting Physician to the Invalids' Hotel and Surgical Institute, a book of 100 large pages, over 600 illustrations, some of them in color, bound in strong paper, will be sent to any one sending 21 cents in one-cent stamps to cover cost of mailing only. Over 600,000 copies of this complete family doctor have already sold in cloth binding at regular price of \$1.50.

Many very bad cases have been permanently cured by it. It is equally efficient for itching piles and a favorite remedy for sore nipples, chapped hands, chilblains, frost bites, and chronic sore eyes. For sale by druggists at 25 cents per box.

LI HUNG IN PARIS.—Upon the arrival of Li Hung Chang at Paris the other day a very comical incident occurred, which for a moment perplexed the diplomats and the gentlemen of his suite present very much. The terrace of the Grand Hotel, where apartments had been reserved for the Chinese Viceroy, was lined with guests and their friends anxious to catch a glimpse of the famous Oriental statesman. At the head of the stairs stood the gigantic porter of the hotel, in his brilliant uniform, resembling somewhat that of a Swiss Guard of the Pope in the Vatican. This figure is very well known to all foreigners who have visited Paris; fully aware of his importance, he stood there erect, awaiting the distinguished guest. Li Hung Chang, arriving, climbed carefully out of his carriage, and walking up the few stairs, caught sight of the dignified individual, who upon his uniform wears a heavy silver chain, with a large medal. Li Hung Chang must evidently have thought him a person of high rank, and stretching out his hand toward him, grasped that of the porter, pressing it long and warmly, at the same time making as deep a bow as his advanced age permitted. It is not difficult to see how ridiculous this scene appeared to all present, and how embarrassed the gentlemen of his suite must have felt. The gigantic porter, however, is now more than happy, and has grown at least one inch in every direction; that is, in his own estimation.

THE PEACH SEASON.—The peach season opened in full blast Monday and from now on shipments will be larger. The fruit is as fine as any shipped in late years and in much larger quantities than for the past three or four years. Light street is at its busiest when the peach season opens.

Many of the steamboat lines are running special peach boats, and all day steamers carry the fruit. The Weems line, the largest in Baltimore, has eight boats running and all carry peaches. They have three regular peach boats which do nothing but carry the lucious cargo. The boats touch at Kent county and all the bay counties of the Eastern Shore, as well as points along the Potomac and the Western Shore. The Lancaster, the St. Mary's and the John E. Tygart are the heaviest running peach boats out of the harbor and when their loads begin to come fast and plentiful there is always a fall in the price of peaches.

The price will be low this year, and the best yellows will sell from 40 to 60 cents a box, while the fine red fruit will not bring over 35 cents a basket.—Baltimore News.

THE PREACHER WAS KILLED.—Rev. J. T. Gibbons, a prominent negro pastor of the African Methodist Episcopal Church, was shot three times Monday and instantly killed by Percy Cook, a member of his flock, at his residence near Austin, Tex. Cook accused Gibbons of being too intimate with his wife, and Sunday night the husband overheard them making an engagement for the pastor to take. He lurked around his home until Gibbons entered, and a few minutes after he killed him Cook surrendered to the officers.

The Discovery Saved His Life.—Mr. G. Caillouette, Druggist, Beaversville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physical means for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial at E. L. Allen's Drug Store.

SHOCKED THE PRINCESS.

Several members of the German Second Guard Artillery went in swimming in Havel lake the other day and neglected the formality of using bathing clothes. The spot they selected is a retired one, but, unfortunately for the bathing warriors, a carriage road runs along the lake shore near by. Just as the men emerged from their bath and climbed up, dripping from the water, a carriage drove by in plain view, and among the women it contained was the sister of the Empress, who, shocked beyond expression, became hysterical and fainted. The matter came to the Emperor's ears and measures were taken to discover the culprits. None of the soldiers belonging to the Guard would confess, and, as a consequence, the entire regiment is now being punished for the offense of the real offenders. Extra drills have been ordered daily, and it is announced, all furloughs in the regiment will be denied until the guilty soldiers are given up for punishment.

A FIFTY-THOUSAND DOLLAR "PEBBLE."—The largest block of stone ever quarried is probably the one just obtained at Fourmies, Belgium, by a civil engineer named Lafitte. This block measures about 10,800 cubic feet, and its weight is over 7,900,000 pounds, or 3,500 tons. As it stands now in the quarry this "pebble" is worth about \$15,000. After it has been cut up it will represent a considerably larger sum, and is sure to furnish work for about 40 stonecutters for the next three months. It was quarried by means of a hand-saw worked by a 20-horse-power engine, and was broken from the solid rock by a charge of 112 pounds of powder, which was allowed to drop into the crack made by the saw. It is stated that this block of stone now holds the record, as far as size and weight are concerned, and will probably continue to hold it for some time to come.

THE WORLD'S BEER MUG.—A French statistician has become interested in the question whether more wine than beer is drunk on the globe. He figures out the annual production of wine in the whole world at 3,510,000,000 gallons, while 4,860,000,000 gallons of beer are annually brewed. The consumption of beer is, therefore, 1,350,000,000 gallons larger than the consumption of wine. The largest beer consumers are Germany, with 1,296,000,000 gallons of beer, and England with 1,269,000,000 gallons. Then comes the United States with 999,000,000 gallons, Austria with 378,000,000, and France with 270,000,000 gallons. Curiously enough, little Belgium consumes almost as much beer as France and is next in order.

"Mamma, was that a sugar-plum you just gave me?" asked little Mabel. "No, dear, it was one of Dr. Ayer's Pills." "Please, may I have another?" "Not now, dear; one of those nice pills is all you need at present, because every day is effective."

Tickets will be valid for return passage within ten days and will allow stop-over privileges at Watkins and Rochester in the direction of Atlantic City.
